

# Treazrly welcomes you to this masterclass

## Unleash the full potential of your team

# Why it is important

- Team Dynamics are often sub-optimal. 4 out of 5 teams are underperforming in reality.
- Every mis-hire has a hidden cost of an average annual salary (up to \$10mn per year for a 500 employee company)
- Currently even high performing teams only operate at maximum 60% productivity
- As A.I. gains traction, the more important "people centered productivity" will become
